

—Carson MacWilliams, oldest son of Rev. A. and Mrs. MacWilliams, Calgary, has enlisted for service overseas. His life has reached the training camp in England, where he is now a member of the Imperial Transvaal. Rev. Mr. MacWilliams was pastor of St. Andrew's Presbyterian Church, this city, preceding Rev. J. A. Wilson.

gave a most interesting talk on the British Flag, beautifully illustrated by lantern slides, which was greatly appreciated by all. At the conclusion a dainty lunch was served by the ladies of the W. A., which was a fitting finish to the pleasant evening spent. The singing of the National Anthem ended the programme.

A SUDDEN DROP

In the temperature often cause watch errors. The next lecture on the subject of time will be given by Mr. Nicholas, who will show how a sudden drop in the temperature can cause a watch to lose time. The lecture will be given at 8 o'clock on Friday, March 3, at the Hamilton Public Library.

DEADLY WORK BY THE CANADIANS

Stormed German Trench and Did Heavy Damage In Daring Night Attack Through the Wires.

British Headquarters in France, March 2.-The Canadians have won a reputation as good fighters in hand-to-hand encounters. The ability in this respect was lately demonstrated when an expedition of twenty-five started out on a trench raid and returned with twenty-three, having accounted for about double their number and destroyed two machine guns.

There had been a certain liveliness in the German trench and a bombing attack was planned. When darkness fell the bomb-throwers started their work, and the Canadians rushed in, shouting their battle cry.

The Canadians were not shot down by the enemy, but they were shot down by the enemy. The Canadians were not shot down by the enemy, but they were shot down by the enemy.

HOW GEOLOGY HELPS CANADA

Dr. Parks Attributes Big Industries to Nature.

Lecture in Old Library Proves Interesting.

The first of a series of lectures on a geological nature, given by Dr. W. A. Parks, director of the Ontario Museum, of Paleontology, in the old library building, attracted a large audience last night. The address of Dr. Parks, given in a manner which had a regular appeal to all, was full of interest, and emphasized numerous important facts concerning the great wealth in the natural resources of the province of Eastern Canada. With splendid views thrown on the screen, Dr. Parks, who is a geologist, showed the formation of the bed of the Niagara River, and how it had been covered by the water, and how it had been covered by the water, and how it had been covered by the water.

Dr. Parks, who is a geologist, showed the formation of the bed of the Niagara River, and how it had been covered by the water, and how it had been covered by the water, and how it had been covered by the water.

Meets With the Hearty Endorsation of the Opposition Leader.

said if the Government would accept this policy and embody it in legislation I should be glad to join my honorable friend the Provincial Secretary and my Government in going before the people and urging their acceptance of such a measure. Where I stood two years ago on this matter I stand today, and if we have a bill pass through this House which carries the measure, I shall be glad to see it to be submitted to the people. I shall be very glad to join my honorable friend the Prime Minister and every member of the Government in going before the people of this Province and urging their acceptance of the ratification of the measure. I desire here to extend my congratulations to the Premier and the members of the Government in proposing this legislation, which I believe has in it great possibilities for

[illegible]

would completely wipe out all hotels, shops, and club licenses, and that it should continue in force during the period of the war and for a reasonable period thereafter, during the period of reconstruction, and that it should not be repealed except by a vote of the

people would be taken at a later date than
the present one. I think it is better to
subject immediately and effectively.
Personally, I think that would be the most
preferable method of dealing with it. I
think it is better to have them all
to cooperate with the Government if they
propose in the Speech from the Throne
that they will do so.

PROUD OF THE SOLDIER

Roy Rowell then touched on the subject
and said that anyone who viewed the men
marco-pole of the soldier the present
day, he would find that they are men
who are voluntarily offering their lives
to achieve victory in the greatest
struggle in the history of the world.
times," said the speaker. "We should
mould us in the pattern that divide us
from each other. We should make it our
will unite in pursuing the one great
common objective which we all have
in heart—the successful prosecution of
this war." He pointed out that the
one motive or impulse might be, who
would seek to take advantage of the
present occasion to glorify in the
praising of the Province or nationality
which was not doing things better

U. S. SENATE PLEGGED TO BACK WILSON

One Round of Fight Over

**Warning to Americans
Goes to President.**

GORE'S WILD TALK

**His Statement Is Promptly
Denied From the White
House.**

Washington, March 2.—Out of a day's developments in President Wilson's fight with the Congress, crowded to the utmost with elements of the sensational and dramatic, the Administration forces in the Senate to-night emerged with pledges of enough votes to kill once, and for all, Senator

Gore's resolution to warn Americans off armed ships of the European belligerents, and demonstrate that Congress stands behind the President in his negotiations with Germany.

Action in the Senate, it is believed, will be followed promptly by stiffening of sentiment in the House against the President's foreign policy.

In one of the greatest non-partisan debates the Senate has seen in years

Chairman Stone, of the Foreign Relations Committee, declared he was not in accord with the President. Senator Lodge, the ranking Republican, pledged his support to the President's determination to secure to Americans their rights on the high seas, and Senator John Sharp Williams, just from a sick-bed, delivered a withering denunciation of the President's opponents. The Senate adjourned until to-morrow morning at 11 o'clock when the Administration leaders plan to bring up the Gore resolution.

solution and table it, disposing of it finally as an embarrassment to the President in his conduct of diplomatic negotiations with Germany. They have found that not more than twenty-three votes can be mustered against them.

In the House, where the President was faced with further delay, the promise of Administration victory in the Senate gave signs of breaking up the opposition, and the leaders were confident to-night of similar action.

There the Senate debated, there came news to the State Department from Berlin that the German official was being used deliberately to weaken the President's hand in Germany. Confidential advisers stated that reports circulating in Germany that the President was wavering came from Washington, declared that Congress stood five to one against the President.

Out of the Senate debate came a turn which for the first time brought the President's shadow the real features of the contest, and probably disclosed the basis for the agitation at the Capital.

Senator Gore, while the Senate was kept in amazement, related a story that the President Wilson, at his conference with Congressional leaders a week ago, had declared that Germany's insistence on her position in the world was contrary to prob-

Mr. Gore declared that he did not say the story was true, but that it came to him with such a concurrence of testimony and such marks of truth as to lead him to believe that it was true.

Chairman Stone, of the Foreign Relations Committee, at once replied that the President never had stated to him nor in his hearing that he believed in an armistice. He maintained, in fact, that war between the United States and Germany would be desirable or would result in good to the United States.

When the White House heard what Senator Gore had said, this statement was issued:

"When the attention of the White House was called to certain statements in Senator Gore's speech this afternoon the President's approach to the subject was as follows:

NO BLAME

For the Death of Geo. Pee
On Railway Track.

The inquest into the death of George Peel, the foreigner who was killed on Monday last by being struck by a Grand Trunk train about a mile east of the Kenilworth crossing, was held last evening. In the east end police station, with Coroner Dr. J. H. Simpson conducting the investigation. Only a few witnesses were called, but they knew little of the accident, other than that the victim was seen to step off the track when the train was approaching. The coroner explained the

points of the case to the jury, and after a short deliberation they returned with the following verdict: "We, the jury, find that George Pool came to his death by being struck by a Grand Truck train, and that no blame could be attached to anyone."

No Better Place.

There is no better place in which to choose a Victrola or Victor record than with the salesmen of the exclusive firms of Heintzman & Co., Ltd., Heintzman Hall, King and John streets. There you will find the most complete range of Victorolas and records. If desired, any terms can be arranged on any instrument.

USEFUL BOOKS

**Hubert Job Makes Donation
to Public Library.**

Good progress in all branches of the institution were reported by the various committees at the regular meeting of the library board held last evening.

The library committee recommended that 219 new volumes be purchased at an estimated cost of \$360. Miss

Little, Dewey and Bastien were appointed assistant librarians, and the chief librarian was instructed to select three substitutes. Miss Bastien was given leave of absence to attend the Boston School, and if she returns the board will pay her railway expenses.

The number of books issued was 17,121 adult, 5,812 juvenile, making a total of 22,943. Revenue from fines amounted to \$102.21. The number of visitors to reading room was 5,484, ladies' reading room 2,323, and to reference room 1,207. During the month

Books donated were as follows:
Dominion Government, Session
Papers, 4; Dominion Royal Commis-
sion, 1, total 5; Ontario Govern-
ment, 1; Report on British Red Cross Fun-
dation, 1; Report of Congress, Report: Sch-

GOING OVERSEAS.

Final Inspection of Nurses and Doctors at Toronto.

Toronto, March 3.—The staff

medical officers and nursing sisters of the Ontario Military Hospital were inspected yesterday by Lieut.-Col. W. Marlow, A. D. M. S., prior to the departure for overseas, which it is anticipated will take place shortly. There were approximately 81 nurses and 30 doctors present, and the inspection was held in front of the Parliament buildings. The entire staff

row in uniform, and their appearance was very favorably commented upon by Col. Marlow. In expectation of orders for an early departure, one-half of the nurses were given furlough leave for the week-end, and the other half will spend the next few days in practical training in a military hospital. Col. Marlow having arranged for groups of 30 nursing sisters to visit

Here the nursing sisters will be instructed under the direction of Matron Leahman in the working of a military hospital. The medical men of the staff in the meantime are receiving training at the A. M. C. school of instruction in details of drill and other military training, and they also will

DIES SUDDEN

London, March 2.—A Bucharest despatch received by Reuter's Telegram Company by way of Amsterdam says that the Queen Mother, Elizabeth of Roumania (Carmen Sylva) died this morning from pneumonia.

in her own words, she was "far from a tarone," for although she was a Princess of Wied, one of many tiny principalities within Germany abandoned, her youth was that of an ordinary robust country girl, who learned to cook and sew and who romped in the open with her companions at the village school.

Married, and settled in the capital at Bucharest, the princess threw herself with great ardor into the life of the court.

her literary talents in a limited way for many years, it was not until the death of her first and only child, at the age of four, that much of her work was published.

Her husband, King Charles I of Roumania, died October, 1914, at 76 years of age. Since then the Queen Mother herself has been in ill-health, suffering particularly from catarrh of the bladder.

recent French air attack on the Syrian position caused terror in the city, but aircraft only threw leaflets saying: "We are fighting the Turkish Government," the Turkish people.

The Turkish bombs on the Hellespont (Greece) and then on Brothers' Heights north-west of Smyrna, and the aircraft were flying over the city of Smyrna. The grand stand of the race course where the Turkish aerodrome is situated was completely destroyed and the water front at Vurva was wrecked.
